

ROHIT PURI

JAVA FULLSTACK DEVELOPER

Karachi, Pakistan | rohitpuri2k2022@gmail.com | 923361316016

[Portfolio Website](#) | [Github](#) | [Linkedin](#)

SUMMARY

I am a recent computer science graduate and Full-Stack Java Developer with hands-on experience building scalable, secure web applications using Java, Spring Boot, Spring Security, Hibernate/JPA, MySQL, and PostgreSQL. Skilled in designing and integrating REST APIs, implementing JWT-based authentication, and building responsive React front-ends. Delivered 5+ full-stack projects and freelance solutions with a consistent 5-star client rating on Fiverr. Seeking a Java Full Stack Developer role to apply strong OOP and DSA fundamentals in a professional development team

WORK EXPERIENCE

Junior Software Engineer Intern-Parix.AI

march 10, 2026 -june 10, 2026

Karachi, Pakistan

- Developed web applications using Java, Spring Boot, React.js, and MySQL. Built and integrated REST APIs and implemented backend features using Spring Data JPA/Hibernate. Worked on frontend development, database management, API testing, and debugging.
- Used Git/GitHub for version control and collaborated with the development team

Fiverr - Remote Freelancer

Jan 2023 - Present

- Completed multiple Fiverr projects involving socket programming (TCP, UDP), Python scripting, and other programming languages.
- Delivered efficient, customized, and reliable solutions according to client requirements in remote work settings.
- Maintained a consistent 5-star rating for quality work, communication, and timely delivery.

EDUCATION

BS Computer Science, SMIU, Karachi, Pakistan

2022-2026

SKILLS

Languages: Java, HTML5, CSS3, JavaScript

Frontend: React.js, Tailwind CSS, Responsive Web Design

Backend&APIs: Spring Boot, Spring Security, Spring Data JPA/Hibernate, REST API Design, JWT Authentication

DataBases: MYSQL, POSTGRESQL

Testing & Automation:JUnit, Postman, End-to-End Testing, QA Automation, Web Scraping

Tools & Platforms: Git, GitHub, Docker, Maven, VPS Deployment

PROJECTS

ShopSphere(E-Commerce Management System)

Fullstack e-commerce application built with Spring Boot, React.js, PostgreSQL, and JWT authentication. Designed 15+ REST API endpoints covering product catalog, cart, and order workflows; implemented role-based access control for admin/customer roles, reducing unauthorized access paths. Supports full order lifecycle management from cart to checkout.

LogiTrack (Logistics & Shipment Tracking Platform)

Fullstack logistics management application developed with Spring Boot, React.js, MYSQL, and Spring Security with JWT authentication. Built real-time shipment status tracking across multiple delivery stages with role-based dashboards for dispatchers and drivers; designed 10+ REST endpoints for shipment CRUD, status updates, and delivery tracking.
